

Multi-Device Insurance (part of Multi-Device Protection Pack) Device Eligibility and Deductible Schedule

5/1/2015 Update

Devices connected to the AT&T network:

The Equipment Tier list is updated regularly to include new models. This list applies to only the devices connected to the AT&T network. Devices introduced under Equipment Tier 2 or Equipment Tier 3 may be moved to a lower Tier during their lifecycle. The non-refundable deductible is based on the date of loss.

If you are not certain of the model of your device, refer to your original receipt or you may be able to determine the model by following these steps (if applicable): Turn the power off. Carefully remove the battery cover and the battery. The model is typically printed on the white label located under the battery.

This list is changed from time to time. Please check this list any time your equipment changes.

Multi-Device Insurance for devices connected to the AT&T network is not available for and coverage does not apply to:

- Galaxy Camera (EK-GC100A)
- Blackberry Playbook
- Phones on GoPhone® accounts
- Tablets with pre-paid data plans
- PlayStation® Vita
- AT&T 3G MicroCell
- Phone or device models not sold by AT&T (e.g., Dell Streak, Google Nexus One, TerreStar Genus)
- Docks (such as for the Motorola ATRIX 4G)
- Amazon Kindle

Eligibility is subject to change.

Devices not connected to the AT&T network (wi-fi):

Multi-Device Insurance for Non-Connected Eligible Devices are not included in the Equipment Tier list below, but are charged a non-refundable deductible at the time of a repair (\$89) or replacement (\$199) as set forth in the Deductible Schedule directly below. Eligible non-connected devices are tablets and laptops with Windows Vista, OS X, Android, iOS or newer operating systems.

Multi-Device Insurance Deductible Schedule					
	Connected Devices			Non-Connected Devices	
	Equipment Tier 1	Equipment Tier 2	Equipment Tier 3	Replacement Due to Loss or Theft	All Other Repairs or Replacements
